WHAT IS MAINTRAK?

MainTrak is the Cloud version of the famous BWM computerised maintenance system, enjoyed by engineers for over 30 years. MainTrak is used for storing technical knowledge, planning preventative maintenance, work scheduling, purchasing and managing spares.
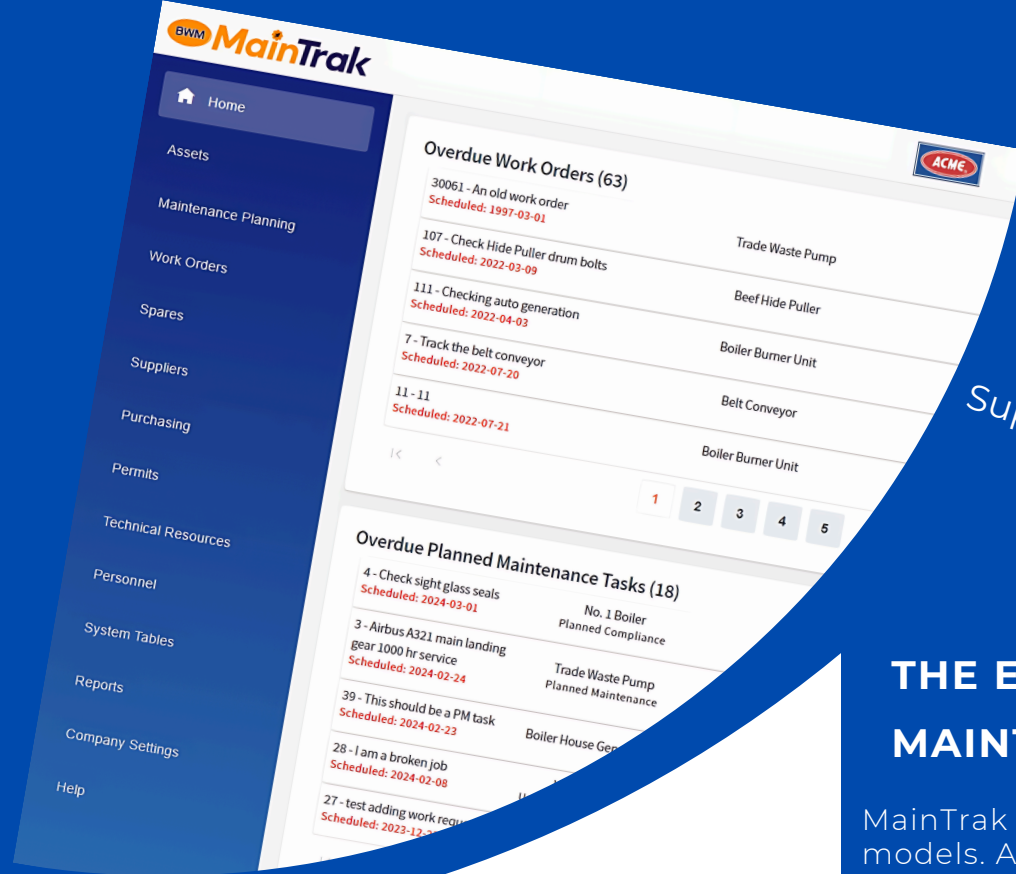

THE ENGINEERING TOOL FOR MAINTENANCE EXCELLENCE

MainTrak is robust and proven, offered in 3 models. All applications are licensed for unlimited users, including staff, contractors and management.

MainTrak is the cheapest maintenance management solution in the world, with no hidden costs. MainTrak is well represented in New Zealand by high profile multinational customers and is the source of a multitude of maintenance management success stories.

Access your data using Excel, custom pdf reports, or 3rd party reporting platforms, (Power BI, Crystal, Access, etc).

BWM MainTrak has been developed by engineers for engineers. It is intuitive and easy to use and loved by workshop staff.

Record your asset information and diagnostic tips, plan your preventative maintenance, organise your work schedule, manage your compliance, link documents and photos to tasks, link spares to assets and tasks, manage your stores inventory, create jobcosted purchase orders.

Complete with online tutorials, help files and optional face to face training.

Access your MS Azure SQL web based account everywhere, by laptop tablet, or phone.
